

Facilitator Self-Care Guide

Unburied Tools - Peer Support Operations Toolkit

SIGNS OF COMPASSION FATIGUE

Irritability - small things feel big

Numbness - stories no longer move you

Avoidance - you dread sessions

Intrusive thoughts - carrying work home

Physical symptoms - headaches, fatigue

BOUNDARIES

Sessions start and end on time.

Not available between sessions.

Share own experiences intentionally.

Refer out when professional help needed.

DAILY PRACTICES

Before session: 5 min of quiet.

After session: notes, transition ritual.

Weekly: review themes, connect with peer.

WHEN TO STEP BACK

Dreading sessions for over 2 weeks.

Your own health is declining.

A trusted person is worried about you.

A participant story triggers you.

Stepping back is not failure.
